Bill,

I am more than happy to give your fine company a reference for licensing. I would like to commend you on the fine job your staff did for us on both my plants. It is very difficult to find contractors that are willing to work hand and hand with us. Your approach to safety is above and beyond most contractors. The crews took the necessary precautions while working around the ammonia lines as well as the numerous areas of bad decking. We appreciate all efforts put into protecting our property during the installation of the roofs with no interruption in our daily operations. David Hunt and Steve Taylor are very professional and great to work with. The roofs at Braselton, Kings Delight- Main Line, and the Freezer appear to be performing as you assured us. As requested, below is detailed information needed to complete your licensing in Alabama. Please call me if you need anything else.
